VINTAGE WEST
WINE & SPIRITS
SALES - MARKETING - DISTRIBUTION

In November 2021, the opportunity for partnership between Vintage West and Coastal Craft came together from a shared vision of customer focus, results orientation, and a like-minded vision for growth. The Vintage West and Coastal Craft portfolios offer a complimentary & comprehensive product list that covers all categories of premium wines, spirits, and ciders.

Vintage West portfolio across Vancouver Island, the Gulf Islands and the Sunshine Coast. The Portfolio includes the following countries and brands:

DUBH GLAS

Distillery

Whisky, Gin and Spirits from the Heart of Wine Country

Dubh Glas (dugh-luhs) in Gaelic means “from the dark water” and is reflective of the source water used in the making of our feature spirits. A well on the property is where we source our pure ‘dark’ water, which is fed by an underground aquifer. That source water from the ‘dark depths’ has been filtered through the Okanagan Valley, free of pollutants and surface contamination. It is also reflective of Grant Stevely, the artisan distiller, who has shared the name in his family for generations.

What really matters?

Stewardship

The Blue Grouse Estate Winery team's philosophy has evolved from the concept of stewardship, where our aim is to make everything we touch better than it was when we found it.

People

We care deeply about family and friends, honesty, simplicity and living a long and healthy life. We believe all this together will make the Blue Grouse experience a lasting one.

Place

The vineyard's terroir encompasses wind protection by evergreen trees, an all-southern exposure, and a combination of clay and gravelly soil, all nurtured by clean air and spring water. Thanks to this exceptional site, the vines require little fertilization and irrigation; just a drop of passion, a splash of dedication, and a pinch of obsession to make the difference!

Bailey Williamson
Winemaker

Sarah Bain, Winemaker

Sarah joined Fitz in 2016 from Quartz Reef: one of New Zealand's leading producers of traditional method sparkling.

It's a little different at Fitz.

There are a few characteristics that set this special place by Okanagan Lake apart from all the others. The first is that they are physically and literally set apart. South of Peachland, north of Summerland, and if you look in those directions from the winery, you won't see other vineyards. Across the lake is Parkland and Ogopogo's house (seriously). They are sitting in their own nanoclimate in a valley of microclimates. There is no other winery in the Okanagan growing in their specific set of conditions. In wine, we call that terroir, and theirs is distinctly Fitz.

Stag's Hollow Winery was established in 1995 on the property which now grows Merlot, Pinot Noir, Cabernet Franc, Cabernet Sauvignon, Sauvignon Blanc, Tempranillo, Muscat Ottonel and Vidal. These vines are now over 30 years old. In 2011, they purchased an 18-acre hayfield, now called the Shuttleworth Creek Vineyard, and planted Tempranillo and Albariño from Spain, Dolcetto and Teroldego from Italy and more Pinot Noir and Syrah.

Environmentally conscious - using geothermal heating and cooling in the cellar, commercial building and residence in 1995, and then again in a new Winery facility built in 2006. Stag's Hollow Winery and Vineyard practices are sustainable and incorporate organic practices. Stag's Hollow Winery and their two vineyards were certified sustainable through Sustainable Winegrowing BC in early 2022

Keira LeFranc, Winemaker

Keira's winemaking style strives to showcase the terroir and natural attributes of the varietal, and careful attention to vinification, most wines are made with minimal intervention, without fining, and are vegan friendly.

It's only natural.

Birch Block is a family-owned, 5-acre vineyard in Kaleden. Named for the large stand of white Birch trees along the top vineyard block. The unique terroir, with sand and loam as well as glacial deposits, combined with long summer days and cool summer nights, make it an ideal site for Pinot Noir – Murray and Sarah's favorite grape. In 2016 they planted pinot noir vines from Dijon clones (115, 667, 777) on 3.5 acres. The site had never been cultivated; it was originally a pasture for llamas and sheep. They are farming organically and believe in a "less is more" philosophy, employing natural winemaking practices with minimal intervention – a true expression of fruit and terroir.

Meet the Makers

Hailing from Vancouver, husband and wife Murray and Sarah Bancroft come from culinary and media backgrounds, respectively. They have both travelled to France extensively since their early 20s and took their young daughters to Paris for a sabbatical year in 2016–2017. With a long-time interest in wine, Murray has participated in both vendange (harvest) and winemaking in Champagne and Bordeaux, and continues to return every year. While working as an international culinary consultant, he spent evenings and weekends studying viticulture at California's U.C. Davis. Sarah enjoys "researching" wine (especially rosé) with friends and family any day of the week.

WINEMAKER'S CUT

Like a director's cut, an edited version of a film that represents the director's unique point of view, Winemaker's CUT is influenced by the winemaker and his unique styling/blending of an Okanagan wine.

The grapes that shape CUT wines are hand-harvested at Deadman Lake Vineyard just south of Oliver, BC. With utmost respect to nature, while honoring traditional winemaking methods, sustainable farming, and a zero pesticides policy with low sulphur use, CUT wines develop naturally and express characteristics indicative of this unique Okanagan vineyard.

It is in appreciation of art and harmony that classical music echoes in the vineyard and cellar where the winemaker captures an accumulation of moments and composes quality wines.

Michal Mosny, Winemaker

"let the wine do the talking, naturally"

Ten years ago a couple from Slovakia, both winemakers, decided to move to Canada because of the show Hollywood and Vines. They opened a winery in the Okanagan and our paths were crossed forever. It was destiny. Two years ago, we decided to put this beautiful story in a bottle. We started by questioning everything – the smallest decision, the most trivial detail – to try to create a wine that has every answer. Now you can hear what it has to say. We hope you are as excited as we are about our inaugural vintage. It's a wine that has a lot to say. But it does so elegantly, almost quietly. It doesn't demand your attention. It earns it. Now, we can't wait to share it with you.

Sincerely,

Jason Priestley
Terry David Mulligan

Michael Bartier,
Winemaker

Project 'B' is a David and Goliath collaboration involving winegrower Michael Bartier, co-owner of Bartier Bros., a south Okanagan boutique estate, and acclaimed English négociant/winemaking force, Boutinot Wines.

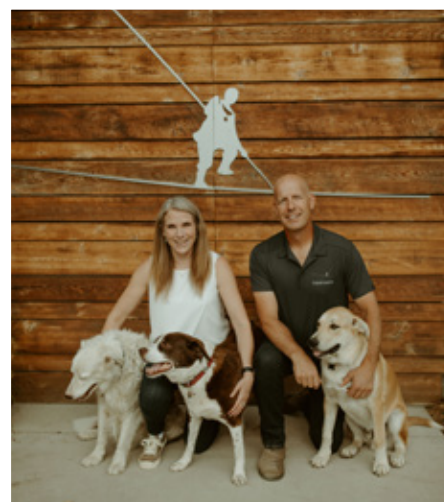

Boutinot has long been known for making delicious wines at an affordable price. From humble beginnings, the UK wine distributor began investing in winemaking projects worldwide, working with like-minded partners and building an amazing business structure.

The philosophy and business model of partnering with growers in various regions spawned a growing team of winemakers, including their enthusiastic chief winemaker Eric Monnin, based in Burgundy. Initial roots were set down in the Rhone Valley at Carianne. From there, the business and exploration took them to South Africa in 1994. In 2003 they established a joint venture with Araldica, Coop in Piemonte, Italy and, more recently, the company bought a long-time supplier and now produces English sparkling wine at Henner's. Project 'B' is Boutinot's first reach into Canada after distributing its wines across the country.

The Name: 'B' surfaced as a constant in the partnership; a Boutinot – Bartier team, our first harvest from Plot B, and as a special nod to the Boutinot Rhone symbol of quality, the Worker Bee.

Tightrope Winery is a small, family-run, sustainable winery on the Naramata Bench.

A true labour of love for owners Lyndsay (winemaker) and Graham O'Rourke (viticulturist). We make hand-crafted, sustainable wines with artistry and passion that capture the soul of Naramata – the personality, character, culture and fruit of 'the Bench'. Tightrope is all about balance. From vineyard to glass, there's balance at every step; between art and science, education and experience, nature and nurture, work and play, husband and wife.

We consider ourselves stewards of the land and take a wholly sustainable approach from grape to glass. We choose this for the good of the wine, the land and those who work it, and the generations to come. We farm two estate vineyards on the Naramata Bench, Fleet Road which is our home vineyard and the Thomas Vineyard a few kilometers away. As the first Certified Sustainable Winery & Vineyard we incorporate many sustainable practices including no insecticides nor herbicides in the vineyard, solar power, use of winemaking waste materials to generate compost to fertilize the vineyard, and social responsibility to name a few.

Our Philosophy, Our Story

At Maverick Estate Winery, we know that wine is an investment in living: love, life and good humour in bottled form. We are Mavericks —uncompromising in our pursuit and unrestrained in our enjoyment of exceptional wine.

Call it a rebellious spirit: we buck today's highly mechanized, high-production trends. Instead, we commit to a by-hand, Old World approach to winemaking. We are deliberately small in production and deliberately patient in our process, because we believe that working in tune with nature is the only way to capture the clean, rich, multi-layered flavours of premium fruit.

Andrew Windsor, Winemaker
Jan Nelson, CEO

LIGHTNING ROCK

Stewards of three unique Pinot Noir producing vineyards in Summerland, each of them expressing very distinct terroir through the wines, despite being located mere kilometres apart. Lightning Rock offers an exploration of Summerland through wine.

Elysia Vineyard

Home to the winery, this vineyard was planted in 2006 with Pinot Noir, Viognier and Syrah. It overlooks Okanagan Lake to the east and enjoys the early and midday sun.

Canyonview Vineyard

Planted in 2003 on the precipice of the Trout Creek Canyon, this south-facing vineyard has sandy soil that is dotted with river stones, producing spectacular Pinot Noir and Chardonnay from two large terraces.

Trestle Beach Vineyard

Affectionately referred to as the "baby plot" this vineyard was planted with Gamay Noir in 2020. It rests on a steep slope adjacent to Canyonview Vineyard in glacial deposits and calcareous-dense soils.

Sébastien Hotte

Sébastien Hotte, or Seb for short is a Washington State University graduate, and certified sommelier from the École Hôtelière des Laurentides who believes in low-intervention and terroir-driven winemaking. He has worked in the wine industry for several benchmark wineries, is an acting consultant.

Terralux Estate Winery

A vision brought to life by three Masters of Wine, Terralux Estate Winery is a highly anticipated new winery located on the Westside Wine Trail in West Kelowna. After years of scouring the Okanagan and Similkameen Valleys for exceptional vineyards that had a story to tell, Terralux now farms 120 acres that have the ideal combination of soil (terra) and light (lux). Inspired by the classic regions of France, Terralux makes timeless, terroir-driven wines that are only released after gracefully ageing in bottle. Sometimes there's no substitute for patience.

When completed, the new establishment will offer an unparalleled level of hospitality, with a commitment to providing exceptional services in an inviting atmosphere. Welcome to the 'new' Okanagan winery experience.

Jacqueline Kemp, Winemaker

NOMAD

HANDCRAFTED CIDER

Nomad Cider is a farm-to-glass craft cidery located in Summerland, BC. Nomad's proprietors are passionate about making cider the way it was traditionally crafted, by hand. Devoted to producing exceptional cider made only from local apples and pears grown in their orchard, and dedicated farming partners in the Okanagan-Similkameen region of BC. Their focus is to be nomadic in global cider culture by stylistically representing cider regions from around the world.

Mike Petkau & Brad Klammer, Founders and Cider Makers.

A team that loves to explore. 'We are Nomads, endlessly exploring food, drink, and culture. Our thirst for knowledge and new experiences continually inspire us to create great tasting regional centric ciders.'

What We Do

Partner with Beverage Producers

We represent select Wineries, Distilleries, Cideries and Breweries that are independent, family owned, and focused on sustainable business practices.

Share the Love

We enthusiastically promote the brands we work with through a coordinated sales & marketing plan, and relationship building.

Support Retailers and Restaurants

We provide an unprecedented level of support and personal service to our colleagues and friends on the front line.

Coordinate Sales

We are the sales team on the ground on Vancouver Island and the Gulf Islands for our family of producers – we place orders, build and implement sales plans, and liaise with distribution centres to coordinate logistics and ensure timely delivery.

Consulting

We consult on, and build beverage programs and wine lists. Provide staff training on wine and service. And work with producers who need professional advice and support on sales programs.

Visit us online at coastalcraft.ca

In order to reduce our carbon footprint and focus on sustainable practices, (just like the folks we represent), we've moved our FULL portfolio online, and printed this smaller price list for your reference.

We encourage you to learn more about the winemakers, distillers and cidermakers we represent here on Vancouver Island, the Gulf Islands and the Sunshine Coast. Visit the website to read the stories behind their products and to understand more about their practices, terroir, and history.

Ask us for technical sheets for staff education, and your own interest.

Representing Craft
Beverage Producers on
Vancouver Island, the
Gulf Islands, and the
Sunshine Coast.

In partnership with these producers, we'll provide you with direct access to premium quality products for your restaurant, bar, and private retail store.

We work exclusively with producers that are independent, family owned, focused on sustainable business practices. Each producer has a unique history behind the beverages they carefully craft, and we'd love to share their story with you.
